ABOUT ME

- I'm an enthusiastic Information Technology student looking for an job opportunity where I can build my technical skills. I'm especially passionate about web development, networking, and database administration, and I have a solid background in programming with PHP, JavaScript, and SQL. I'm a quick learner who enjoys solving problems, adapting to new challenges, and working well with others. I have completed several web development projects and interned at a leading company.
- I'm eager to grow professionally and make a meaningful contribution wherever I work. I am dedicated to continuous self-improvement and always eager to learn new technologies, believing that staying updated is key to personal and professional success.

PROJECT

Barangay Information System
- https://brgypaliparan2portal.fwh.is/BIS/index.php

Attendance Monitoring System
- https://tmcshs.ct.ws/TMCSHS/School/index.php

Human Resources Management website Directory
- https://sites.google.com/view/caviteprov-hrmdirectory/home

- Designed and developed a web-based system for Barangay Paliparan II to digitize services and streamline resident transactions using PHP, MySQL, HTML, CSS, and JavaScript.

- The attendance monitoring system is a web-based application built with PHP, HTML, CSS, and JavaScript. It is designed for senior high schools to securely and efficiently track student attendance.

- The HRM Unit Directory Website is a digital platform built with Google Sites, HTML, CSS, and JavaScript to provide easy access to HR services and personnel information for DepEd Cavite.
